Part II Course Details

1. Abstract

This course aims to provide students with the necessary communicative competence to operate effectively in academic legal contexts. Students on the course will learn how to find and critically evaluate a range of legal texts (including legislation and judgments) and how to present these texts creatively, in plain legal language that is accessible to both specialist and non-specialist audiences. Students will learn how to construct legal arguments by 'thinking like a lawyer' and using the English language in a way that is appropriate to an academic legal context, drawing on appropriate rhetorical structure, grammar and vocabulary. Students will learn how to explore legal texts using linguistic search tools, making discoveries that inform their learning and use of the language of the law. Finally, students will have the opportunity to collectively reflect on their learning by engaging in online discussions related to key concepts on the course.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

(PILOs) in Section A of Annex.

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3.

Teaching and Learning Activities (TLAs) (*TLAs designed to facilitate students' achievement of the CILOs.*)

2.2 Additional Readings

(Additional references for students to learn to expand their knowledge about the subject.)

A. Please specify the Gateway Education Programme Intended Learning Outcomes (PILOs) that the course is aligned to and relate them to the CILOs stated in Part II, Section 2 of this form:

| | GE PILO | Please indicate which CILO(s) is/are related to this |
|---------|--|--|
| | | PILO, if any (can be more than one CILOs in each PILO) |
| PILO 1: | Demonstrate the capacity for self-directed learning | All CILOs encourage independent learning and critical thinking/evaluation. CILO 4 requires students to make independent discoveries. |
| PILO 2: | Explain the basic methodologies and techniques of inquiry of the arts and humanities, social sciences, business, and science and technology | Students learn how to 'think like a lawyer' and present or re-present information to specialist and non-specialist audiences (CILOs 1-4) |
| PILO 3: | Demonstrate critical thinking skills | See above |
| PILO 4: | Interpret information and numerical data | |
| PILO 5: | Produce structured, well-organised and fluent text | Students are frequently involved in the analysis and construction of a range of legal texts for different purposes and audiences. CILOs 1-3 explicitly support this PILO. |
| PILO 6: | Demonstrate effective oral communication skills | Students are involved in frequent in-class discussions in English (CILOs 1-4) |
| | Demonstrate an ability to work effectively in a team | Students work in groups in order to create legal popularizations (CILO 2) |
| PILO 8: | Recognise important characteristics of their own culture(s) and at least one other culture, and their impact on global issues | |
| PILO 9: | Value ethical and socially responsible actions | Students interpret legal texts according to their social impact, from the perspective of both specialists and non-specialists (CILOs 1, 2 especially) |
| PILO 10 | : Demonstrate the attitude and/or ability to accomplish discovery and/or innovation | In CILOs 2 and 4 students demonstrate the ability to accomplish discovery and/or innovation by presenting information in novel ways for a wide audience of non-specialists. |

GE course leaders should cover the mandatory PILOs for the GE area (Area 1: Arts and Humanities; Area 2: Study of Societies, Social and Business Organisations; Area 3: Science and Technology) for which they have classified their course; for quality assurance purposes, they are advised to carefully consider if it is beneficial to claim any coverage of additional PILOs. General advice would be to restrict PILOs to only the essential ones. (Please refer to the curricular mapping of GE programme: <u>http://www.cityu.edu.hk/edge/ge/faculty/curricular mapping.htm</u>.)

B. Please select an assessment task for collecting evidence of student achievement for quality assurance purposes. Please retain at least one sample of student achievement across a period of three years.
