Part II  Course Details

1. Abstract
   (A 150-word description about the course)
   This course aims to introduce students to a systematic description of the English Language and to introduce students to the skills needed to apply their knowledge to the analysis of authentic language data.

2. Course Intended Learning Outcomes (CILOs)
   (CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

A1: Attitude
Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability
Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments
Demonstrate accomplishment of discovery/innovation/creativity through producing/constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3. Teaching and Learning Activities (TLAs)
   (TLAs designed to facilitate students’ achievement of the CILOs.)

Language analysis and discussions

Students will be given authentic and contrived language data to experiment with the ways in which their knowledge of language can be applied to perform language analysis, descriptions and explanations; Students will, by responding to questions and doing research, develop their abilities to evaluate the appropriateness of language uttered or written for a particular purpose in a particular context.

4. Assessment Tasks/Activities (ATs)

(Ats are designed to assess how well the students achieve the CILOs.)

First mid-semester in-class test:
Will test students’ ability to identify and reflect on the different language systems, the acquisition of first and second languages; Will test students’ application of knowledge.

Second mid-semester in-class test:
Will test students’ ability to generate theories about the different language systems; Will test students’ application of knowledge.

End-of-course assignment:
Will give students opportunities to apply their knowledge to critically analyze and evaluate authentic language data.

Class Participation:

* The weightings should add up to 100%.
