Part II Course Details

1. Abstract

(A 150-word description about the course)

This course aims to give students a good understanding of language and communication issues in a selected English speaking country or a country where English is used as a lingua franca while acquainting them with topics that have applications, which could be: 1) linguistic issues 2) multiculturalism, 3) language and the environment, 4) creativity, language and culture, 5) multimodality and semiotics. During the course, students will engage in theoretical discussions about these topics and then apply the theories to observations of actual language use and communication in the real world. At the end of the course, students critically reflect and evaluate their overall learning experiences, and creatively demonstrate their language, academic and personal achievements. Since this course takes place in s country where English plays a significant role, students have considerable opportunities to practice their English communication skills and to become more critically aware of culture and language and their interaction.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3. Teaching and Learning Activities (TLAs)

(TLAs designed to facilitate students' achievement of the CILOs.)
