Part II Course Details

1. Abstract

(A 150-word description about the course)

This course aims to provide students with sufficient understanding of the major systems of English grammar to enable them to i) understand how grammar contributes to meaningful communication and ii) diagnose learners' problems with English grammar. It also introduces students to the presentation of grammatical information in learners' dictionaries. Students will develop the skills to describe language data and to analyse the systematic relationship between variation in language and variation in context.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

No.	CILOs [#]	Weighting* (if applicable)	Discovery-enriched curriculum related learning outcomes (please tick where appropriate)		
			A1	A2	A3

4.	reflect on the ways in which meaning is determined by context;		√	√	√
5.	describe the ways in which grammatical information is presented in learners' dictionaries.		√	√	√

[#] Please specify the alignment of CILOs to the Gateway Education Programme Intended Learning outcomes (PILOs) in Section A of Annex.
