Part II Course Details

1. Abstract

(A 150-word description about the course)

The course identifies and describes the nature and process of second language acquisition (SLA). Students will apply the findings of SLA research in their teaching of English as a second language (TESL), and relate SLA knowledge to TESL practice, with the ultimate aim to generate effective curricular materials and teaching strategies, particularly in Asian contexts such as Hong Kong and the rest of China.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

Upon successful completion of this course, students should be able to:

No.	CILOs	Weighting* (if applicable)	Discovery-enriched curriculum related learning outcomes (please tick where appropriate)		
			A1	A2	A3
1.	understand the theories proposed to account for (first and) second language acquisition and apply the theories to students' own teaching and learning;		√	√	√
2.	understand and evaluate the impacts of individual differences on the process of second language acquisition;		√	√	
3.	analyze the development of learner language and apply relevant theories to analyze students' own learner language;		√	√	√
4.	analyze and evaluate the dynamics of teaching and learning a second language in a classroom and apply relevant concepts to students own teaching and learning;		√	√	√
5.	analyze and evaluate the effects of instruction on second language acquisition;		√	√	
		100%			

* If weighting is assigned to CILOs, they should add up to 100%.

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3. Teaching and Learning Activities (TLAs)

(TLAs designed to facilitate students' achievement of the CILOs.)

TLA	Brief Description	CILO No.						Hours/week (if applicable)
		1	2	3	4	5	6	
1	<p>Reading the textbook and additional readings</p> <p>The course book and additional readings contain information related to all the topics dealt with on the course. A set of questions will be provided for every reading. Students should complete the reading assignment for the week before coming to class.</p>	√	√	√	√	√		
2	<p>Lectures</p> <p>There will be one three-hour lecture every week. In the lectures, concepts introduced in the reading materials will be discussed.</p>	√	√	√	√	√		
3	<p>In-class tasks and activities</p> <p>Problem-based tasks will be carried out in class on topics covered in the readings. These will involve the analysis of second language data and SLA theories relevant to students' own teaching and learning experiences. Students will also synthesize material from the readings and consider application of relevant SLA theories to language teaching and learning, particularly in Hong Kong and the rest of China. The in-class tasks and activities will equip students with further knowledge relevant to the completion of the ATs and the accomplishment of the CILOs.</p>	√	√	√	√	√		

4. Assessment Tasks/Activities (ATs)

(ATs are designed to assess how well the students achieve the CILOs.)
